STUDENT GOVERNMENT

Background

- This report displays the demographic composition of Undergraduate Student Government and, when available, compares our composition proportionally to that of the student body

  - 1 response opted out of having their information included in the report
  - 2 duplicate responses removed, with the most recent response being used in analysis
- There were between 200 – 220 eligible members of Undergraduate Student Government*
- University comparisons were pulled from the 2019 Student Fact Book published by the University of Cincinnati
- Any Personally Identifiable Information (PII) was removed prior to analysis of results
